Applicant  <b>UNIVERSITY OF SURREY et al.</b>		

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 2 sheets.

☒ It is also accompanied by a copy of each prior art document cited in this report.

### 1. Basis of the report

a. With regard to the **language**, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

b. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international search was carried out on the basis of the sequence listing :

☐ contained in the international application in written form.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority in written form.

☐ furnished subsequently to this Authority in computer readable form.

☐ the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

☐ the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

2. ☐ **Certain claims were found unsearchable** (See Box I).

3. ☐ **Unity of invention is lacking** (see Box II).

4. With regard to the **title**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the **drawings** to be published with the abstract is Figure No.

☒ as suggested by the applicant.

☐ because the applicant failed to suggest a figure.

☐ because this figure better characterizes the invention.

2

☐ None of the figures.

# INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/GB99/00469

## I. Basis of the report

1. This report has been drawn on the basis of *(substitute sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to the report since they do not contain amendments.)*:

### Description, pages:

1-9 as originally filed

### Claims, No.:

1-23 as originally filed

### Drawings, sheets:

1-4 as originally filed

2. The amendments have resulted in the cancellation of:

- |   |         |
|---|---------|
| <input type="checkbox"/> the description, | pages:  |
| <input type="checkbox"/> the claims,      | Nos.:   |
| <input type="checkbox"/> the drawings,    | sheets: |

3. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed (Rule 70.2(c)):

4. Additional observations, if necessary:

International application No. PCT/GB99/00469

Item V

The following document is introduced into this preliminary examination report:-

D1= WO 97 11507 A (QUALCOMM INC).

Document D1 demonstrates that it is known in the art to associate a multifilar antenna with a weighting circuit to control frequency, polarisation and/or direction of propagation of a received or transmitted signal.

However there is no suggestion in any of the cited prior art that such an antenna may be rendered adaptive by providing control means responsive to detecting means, the former controlling the weighting circuit.

Claims 1-23 are considered to be novel and inventive accordingly.

Item VII

Should the application enter the regional phase, the following matters will need attention:-

- (i) those independent claims which are retained should be cast in correct two-part form (Rule 6.3(b)) with respect to D1.
- (ii) reference signs in parentheses should be inserted in the claims [Rule 6.2(b)]. This applies to both the preamble and characterising portion.
- (iii) the opening pages of the description should be brought into line with the new claims [Rule 5.1(a)(iii)].
- (iv) document D1 should be referred to in appropriate terms in the description to comply with Rule 5.1(a)(ii).
- (v) claim 23 is not of allowable form and would need to be deleted.

## \* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
